## PROJECTS

### Silver Twilight Club — [github.com/MitchGuth/silverTwilightClub](https://github.com/MitchGuth/silverTwilightClub)

SEPTEMBER 2018

- Worked with other developers to create a multiplayer text-based game utilizing database queries, AWS and Express.js.
- Designed and engineered most of the UI for the single, dynamic web page, as well as the login/sign-up feature.

### Shiba Sensei — [github.com/nat-sharpe/Shiba-Sensei](https://github.com/nat-sharpe/Shiba-Sensei)

AUGUST 2018 — LIVE WEB PAGE: [nat-sharpe.github.io/Shiba-Sensei](https://nat-sharpe.github.io/Shiba-Sensei)

- Spent a week with two team members building a timed puzzle solving game. Used an external API of random shiba inu images.
- Wrote the main functions for the game logic. Figured out ways to randomly divide the images and move the puzzle pieces.

### Vikingram — [github.com/nat-sharpe/Vikingram](https://github.com/nat-sharpe/Vikingram)

JULY 2018 — LIVE WEB PAGE: [vikingram-44fd1.firebaseio.com](https://vikingram-44fd1.firebaseio.com)

- Created a web page based on Instagram. Explored CSS techniques, jQuery, HTML5 Audio and dynamically populated content.

## EXPERIENCE

### Private Eye Antiques — Charlotte, NC — Owner

OCTOBER 2015 - JUNE 2018

Purchased and sold historical artifacts to customers locally and around the world. Made effective use of win-win negotiation, market research and capital management.

### Schwan's Home Delivery — Hillsboro, ND — Route Sales Rep.

NOVEMBER 2013 - OCTOBER 2015

Sold and delivered frozen food to customers at their homes. Practiced diplomatic sales while maintaining a tight schedule. Identified prospects and helped them transition into long-term customers.

## BIO

User-focused software engineer with a love of complex systems, visual media and innovation.
